Fatal Accident on River Road

Rioting Breaks Out in London

TRUCK IN ACCIDENT HERE CARRIED THOUSAND BOTTLES OF "JAKEY"

Many Cases Disposed of in Police Court

The borough was enriched by about $120 as a result of police court hearings this morning. The week-end proved a rather busy period for the police and numerous arrests were made, the majority being for drunkenness and disorderly conduct.

A collision between a huge truck of the Brarmee and Zuckerman Co., of Pittsburgh and the Hudson touring car belonging to William Carter at Third street and Schoonmaker avenue at an early hour Sunday morning resulted in both machines being badly damaged and the arrest of the driver of the truck. When it was brought to the police station, the truck was found to be loaded with over a thousand bottles of Jamaica Ginger, consigned to various dealers in the valley. The truck is being held at the police station along with its cargo.

David Douglas, a negro who hails from Harrisburg was arrested on a charge of being a suspicious character, and when searched, was found to be carrying a loaded revolver and a huge knife. He was assessed to pay a fine of $25.00 and costs.

George Dewey and Lillie Benson, colored, were arrested on Third and Schoonmaker at four o'clock in the morning. Lilly was arousing the neighborhood with Indian warhoops, and was visibly under the influence of liquor. Both paid fines of $10.00 costs.

Three young men arrested on a charge of disorderly conduct for creating a disturbance in front of the postoffice where they had parked their Ford car, were fined $3.00 and costs.

Thomas Hinto, arrested for being drunk, failed to put in his appearance and forfeited $10.00.

August Kerner, Thomas Donohoe, Sam Jake, C. Brovick and Bert Mack paid fines of $1.00 and costs for being drunk.

John Moxiine, Alex Horick and Andy Ezersky of Morgan avenue, for violation of a borough ordinance in regards to the disposal of garbage paid fines of $3.00 and costs and also $3.00 each for the disposal of the rubbish.

Steve Milewich, 1216 Chestnut St., Joe Torkar, 1230 Knox avenue, Geo. Fayaks, 1217 Reservoir avenue, arrested for allowing their cows to run at large paid fines of $3.00 and costs.

Ol' John B. Thrift, Sr.

Second Fatal Accident on River Road

The second fatal accident within a week occurred Saturday morning on the new Donora-Monongahela river road when Andrew Fagan, a 14 year old boy of Donora met his death under the wheels of a heavy truck. The boy is employed at the glass works in Charleroi and is the son of Mr. and Mrs. John Fagan of Donora. He was in the vicinity of the ball park Saturday morning and it is thought attempted to jump on a passing truck and was thrown under the wheels of the machine. His stomach was badly crushed and he suffered other internal injuries which caused his death a few hours later in the Memorial hospital at Monongahela.

The boy was picked up by James Gilmore, who first took the little victim to his home and then had him removed to the hospital. The driver of the truck failed to stop after the accident occurred and the authorities are making an effort to locate the driver.

Autoists are using the new road as a speedway and it is likely that State Police will be stationed along the route to arrest the speeders and break up the practice that is responsible for the serious accidents.

Phillip Billich, aged 24, unmarried, a car repairman, was almost instantly killed yesterday morning about 10:30 while at work in the yards of the Donora Southern railroad company. He was badly crushed about the body and died a few minutes later in the emergency hospital of the American Steel and Wire mill.

Farewell Banquet

A farewell banquet was held by the members of the Victory Garrison Post No. 65 of this city, in honor of Edward J. Hebets, post commander, and also originator of this post, in the Elks Temple, last night. Comrad Hebets is leaving for Phoenix, Alizona, where he will undergo an operation for wounds which he received while in the service of the United States Navy. He will also take a course in the government school at that place. He was presented with a post commander's gold medal with a naval insignia for his service in the navy. Jacques A. La Belle, national patriotic instructor of the army and navy union, veteran medal of merit won, and veteran of of each war since Spanish-American war, was the speaker of the evening. His subject was "One Hundred per cent American. Jack Keefer was the entertainer for the evening and had the boys laughing all the time with his songs and monologues. William F. Shaefer was the toastmaster and handled his job in the good old fashioned way.

The comrads present were: Albert H. Scales, Post Commander; Albert K. Saylor, Post Adjutant; David Canavo, officer of the day; Samuel Destefeno, Sam Reed, Andy Fonko, Mike Fonko, John Gnip, Reiney Prezel, Harry Irwin, Edward Dessent, Paul Davidson, Sam Essey, Edward Furick, William Wright, Sam Pappas, Lucas Mikedis, Jacques A. LaRelle, William F. Shaefer, Edward Heberts and Jack Keefer.

At the close of the evening, Commander Scales and Adjutant Saylor announced that on Armistice night there will be a parade and banquet and asked that all members get busy and pass the word around.

Harvest Big Crop

Although the county home management has not yet completed harvesting all of the season's crops, on the home farm and on the George Station farms, the wheat, oats and the rye crops have been threshed from the County Home Farm 663 bushels of oats and 287 bushels of wheat were threshed and on the George Stanton lands 839 bushels of oats, 86 bushels of wheat and 221 bushels of rye were raised. The big hail storm a couple of months ago wrought great damage to the oats and the corn crop at George Stanton.

The corn crop at the county home farm is good while on the other farm the yield is not promising. Over 700 bushels of potatoes have been raised while the yield of tomatoes this year was, Superintendent John Geisel says, the biggest they ever raised, and the county jail was also supplied out of the surplus. Two barrels of kraut have already been made and a bumper crop of cabbage was produced.

Military Funeral

The body of Thomas M. Llewelyn, a young soldier, who lost his life when the Tuscania was torpedoed off the west coast, of Scotland and had been interred along the rocky shores with the bodies of several hundred other soldiers, arrived at the home of his parents, Mr. and Mrs. J. L. Llewelyn at Scottdale last week and a military funeral was given the dead hero Sunday when practically the entire community turned out to pay its last respects to the young man. Soldiers and sailors marched in uniform and as the procession moved towards the cemetery, aeroplanes flying overhead, dropped flowers along the route. Earl, Dale and George Warman, relatives of the deceased as well as Ivan Odbert, of this city, were present.

Violate Law

Harrisburg, Oct. 18.—There are no streets nor highways in the state of Pennsylvania on which because of the traffic importance of the thoroughfare the driver of an automobile has the right of way.

On every street, alley, state highway, county road, or township thoroughfare, when two vehicles approach an intersection at the same time the vehicle approaching from the right shall have the right of way.

There are no "priority" thoroughfares in Pennsylvania. The driver of a vehicle on Broad street, Philadelphia; Fifth Avenue, Pittsburgh; Market street, Harrisburg; Main street, Johnstown; Lackawanna Avenue, Scranton; Fourth street, Williamsport; or any other important Pennsylvania street—and the driver on the Lincoln Highway, William Penn Highway, or other main thoroughfares, does not have the right-of-way simply because of his presence on an important traffic artery.

At all times, at every intersection of the two public highways, the vehicle approaching from the right has the right of way.

The State Highway Department today issued a statement calling particular attention to Section 23 of the automobile law approved by Governor Sproul, June 30, 1919. This section contains the following provision:

"Every operator of a motor vehicle shall, at all times, keep as close as possible to the right hand side of the highway, allowing other vehicles free pass at to the left, and no operator of a motor vehicle shall allow such vehicle to stand in the center of the highway or so as to obstruct or interfere with any other users thereof.

"At the intersection of public highways the operator of a motor vehicle shall keep to the right of the intersection of the centers of such

(continued on page three)

FORTY INJURED IN CLASH THIS MORNING BETWEEN RIOTERS AND THE POLICE

(By United Press)

London, Oct. 18.—Rioting broke out this morning following the calling out of all miners over the kingdom. Rioters and police clashed on Whitehill and Downing streets early this morning and forty people were injured. At 4:30 p. m. the fighting was still in progress and the streets were being torn up by the rioters who were hurling all sorts of missles at the police. Police were knocked from their horses and the animals ran wild through the crowd. At 4:50 this afternoon the police got the crowd on the run rushing them time and again and beating them over the head with their truncheons.

By CHARLES McCANN
(United Press Staff Correspondent.)

London, Oct. 18.—England watched the tide of unemployment rising around here as the nation-wide coal strike became effective.

Seaports became congested. Today there were 700 vessels tied up at Neardifin alone, no coal in the bunkers, no cargo in the hold. Many docked here last week expected to take back the usual cargo of coal. That was prevented by the export embargo issued the moment the miners let it be known they intended to strike. It was believed by many that ships would leave the ports in ballast, getting away before the situation becomes too serious.

The possibility of a general labor upheaval was admitted.

The first indication that such a step might be intended by the workers came in the announcement of the Scottish railway workers.

"The railway men of Scotland are prepared to cease work at noon tomorrow (Monday) in support of the miners," the organization telegraphed the miners' executives.

There was a fear that the Scottish decision might determine railway men here to leave their work before they are forced out of employment by coal shortage.

The government was well prepared for the strike. Plans had been completed for transportation of food and other necessities and schedules for users of coal were made public.

Claims that Parliament can settle the strike within a week if it chooses were advanced in some sections, giving the press hope that something might develop along that line.

The Daily News suggested the Prince of Wales as a mediator. It said it understood "he was by no means unwilling to undertake the task if a general invitation were issued."

Keystones Won

The Keystone foot ball team of this city defeated the Bull Dogs of Boston, Pa., on the local grounds Saturday by a score of 6 to 0. The game was slow and uninteresting, neither team displaying anything other than straight foot ball and the game was long and drawn out due to wrangling and disputes over the officials' decision. The Keystones scored in the first half but from then on both teams were held even with the play being in midfield.

Seek Damages

Mr. and Mrs. Giovanni Iaquinto of Webster, have brought suit against John Evans to recover damages to the amount of $10,000. The plaintiffs state that, on October 19, 1919, the defendant was driving his Ford automobile along the paved highway leading from Webster to Monessen and struck their son, Salvatore Iaquinto and killed him. They claim that the body of their son, aged 11 years, was dragged twenty yards.

Home From Hospital

Lewis Williams, who has been a patient at the Allegheny General hospital in Pittsburgh for several months has been brought to his home here on Sixth street. Mr. Williams underwent two severe operations of bone grafting, the result of a broken thigh which he received in a fall at the local mills several months ago. The operations were a complete success but it will be some months before a permanent cure is affected. George Price and Clem Daurin, brother-in-law of Mr Williams, accompanied him home from the hospital. His many friends will be pleased to hear of his recovery.

Battle With Police

(By United Press)

Chicago, Oct. 18.—Three men were wounded in a running battle this morning between police and alleged bootleggers. Mike Connelly, a former police officer and J. F. Vaght were seriously injured along with Thomas Powers, a police sergeant and Patrolman Fitzgerald.

Former Resident Dead

Mrs. Sarah Harris widow of the late Joseph Harris and a former resident of this city, died at West Newton Sunday, October 17th, at 1:30. The deceased was well known here and was active in church work during the early days of the town. She made her home with her son, Arthur Harris in West Newton and is survived by four daughters and three sons as follows: George and Chas. Harris of Newell, Arthur of West Newton; Mrs. E. Barkley of West Newton; Mrs. A. J. Beistel, of Rana Vista and Mrs. James Gaby and Mrs. A Smaltz of this city. Funeral services will be held at the late home Tuesday afternoon at two o'clock.

Want Games

The Pittsburgh Lyceum Juniors, formerly known as the Pittsburgh Lyceum Midgets, would like to arrange games with all the 17-18 year old basket ball teams in Monessen for games abroad. For games write Stanley Cunningham, 25 Hooper St., Pittsburgh, Pa.

Student Murdered

(By United Press)

Philadelphia today shrouded the motive for the murder of Elmer C. Drewes, 23, Dartmouth student, who was found sitting against a lamp post in a lonely suburb, his knees drawn up to his chin and a bullet wound in his forehead.

A lamp lighter, tramping his beat through the morning twilight extinguishing the street lamps, discovered the body. Jewelry and $900 in Liberty bonds, cash and checks were found in his pockets. Marks of automobile tires indicated the body had been brought to the spot in a car and propped up against the lamp post while the motorists calmly turned around and returned the way they came.

Christian F. Drewes, father of the murdered man, declared his son came home over the week-end and that he left the house at 9:30 p. m., Saturday to go to Reading, Pa., to purchase an automobile, which he intended to drive to Dartmouth later.

There was a possibility that Drewes has been slain by bandits to whom he gave a "lift" and who killed him to get his car.

Two Planes Here

Residents of the upper Monongahela valley were given a unique treat yesterday when two aeroplanes appeared in the air at the same time, about noon. The local aeroplane, with David Ruse as pilot, was giving an exhibition of fancy flying when a machine from Monongahela City, hove into sight and the local aviator went after him, both planes flying towards Charleroi, and passing each other by a narrow margin. Aviator Ruse added a few thrills to the sight by turning his plane time and again and after taking a tail spin, returned to the aviation field at the Lynn Grove, back of Belle Vernon. Several thousand people visited the field yesterday and numerous passenger flights were made.

Buto Thieves Active

That there is a band of automobile thieves operating in this county stealing cars and running them away and disposing of them, is belief of officers. Tuesday evening Harry Garman, a Jeannette business man, left his big Studebaker touring car in front of his residence on First street and while the family was in the house, a thief drove the car away. No trace has been discovered of the Gill Watt car, which was stolen from Greensburg last week. Several other cars have been driven away and they have not yet been located. And on it goes. It is believed the stolen cars are driven into cities, possibly into other states, and disposition made of them.

The Stearns touring car belonging to Morris Rezner and an Essex touring car of Mr Hutchinson collided yesterday morning about ten o'clock at Oneida and Schoonmaker avenue. No one was injured and the cars were only slightly damaged.

Prisoners Escape

(By United Press)

Ossining, N. Y., Oct. 18.—Posses were searching the hills of western Conneticut and Westchester county, N. Y., today for two convicts who spread terror thru that section after escaping from Sing Sing prison Saturday night.

The men are George Stivers, 21, serving a 20-year sentence for killing a policeman, and Marcus Bassett 25, who had but a month to serve of a two-year sentence for stealing an automobile.

The convicts, who were "trusties", escaped by hiding in an ante-room of the key room and felling two guards with clubs. They made their way to the yard through the laundry and there attacked another guard, obtaining a rifle and revolver.

They stole a small automobile from in front of a house in Ossining. On reaching New Castle corners they ran out of gasoline and abandoned the light car in favor of a larger one, speeding on toward the Conneticut line.

Meantime, Sing Sing officials had warned the surrounding country and posses were quickly formed by villagers and farmers. After crossing the state line near Danbury, Conn., they held up a garage man and forced him to replenish their gasoline supply. Later they encountered two automobilists and robbed them of $23, in addition to appropriating their overcoats with which they hid their grey prison clothing. They then ripped the license plates from their victims' car and put them on their stolen machine.

Near New Milford they again ran short of gasoline and held up another garage man. Developing engine trouble at Wingdale they stopped near the prison farm at that place, run in connection with Sing Sing and made repairs.

Stivers and Bassett were last reported in the vicinity of Millerton, N. Y., in a small automobile for which they had abandoned their large car, they apparently had lost their bearings as they were only 65 miles from Sing Sing, though they had covered 250 miles in a circuitous route. They were believed to be trying to make their way to Rhode Island or Massachusetts, as they had been in correspondence with persons in those states.

Fatally Scalded

(By United Press)

Colonia, N. J., Oct. 18.—Edward Quail engineer of a Pennsylvania passenger train, was fatally scalded when his locomotive overturned in a rear end collision with an eastbound freight train near here early today. His fireman was injured but all of the passengers were said to have escaped.

Quail's train was bound from Philadelphia to New York. Fog is reported to have obscured the signals.

Two local manipulators of the "bones" having defeated all comers in this city traveled to Donora Saturday night to try their luck but unfortunately ran amuck of the police and were placed in a cell. $10.00 forfeits were posted by both young fellows and they departed for their homes and intend to confine their efforts in the future to local fields.

REPUBLICAN IN POLITICS

THE FORTY DAY FAST

The hunger strikes now in progress in Ireland and elsewhere recall to older folks the famous fast of Dr. Henry Tanner, who took no food for forty days, and then broke his remarkable period of abstinence in a manner that made the whole medical world sit up and take notice. His record has seldom been equaled and never surpassed in the history of medical science under conditions free, from the shadow of doubt. Dr. Tanner fasted twice, once forty-two days, according to his own testimony, as a cure for various ailments, and then another forty days some time later to prove to the physicians that he could do it. The first fourteen days he took neither nourishment nor exercises, but after that he went for a short carriage ride each day and drank water.

Tanner's feat produced intense excitement and great crowds gathered and the whistles blew when it became known he had survived it.

But it was his manner of breaking the long fast that astonished his physicians. Disregarding all remonstrances, Tanner reached for a soft, ripe peach, peeled it and slowly ate it. Then he called for a Georgia watermelon off the ice. He cut a hole in it and plunged his hand down into the heart and ate a considerable quantity of it. Waiting a few minutes he took a glass of milk on top of the peach and the watermelon and then stood up and made a little talk to the crowd apparently greatly relieved after his long strain. In a half hour he took a little more watermelon.

After being driven to the home of a physician, Dr. Gunn, he rested an hour or so and then drank an ounce of light wine, after which he took another slice of watermelon. At 4:30 he was eating with great relish a piece of beefsteak, not swallowing the fiber of the meat.

At 6 o'clock he asked for an apple ate it, then asked for another and partially finished it. At 7:30 he tried the beefsteak again and at 8 another ounce of wine.

Then he fell asleep and awoke the next morning with no distressing effects, while the entire medical world wondered.—At the end of his fast he weighed 122 pounds, a loss of thirty-five pounds from his normal weight, his pulse registered ninety-two beats and his temperature was ninety-nine.

The human stomach is a most amazing organism, and hunger strikers are not the only persons who treat it shamefully. Over eating is quite as serious as undereating, and there are many who wonder at the folly of the hunger-strikers who might practice with profit a few of their tricks.

A STARVING NATION

The Finnish Red Cross reports that Petrograd is a "starving city." It might have gone farther and said that Russia is a starving nation. To be sure, there are districts, many of them, in the rural localities where the peasants have raised enough grain and fat producing animals to feed their population, but cities like Petrograd are living on short rations and thousands will die there of starvation this winter.

Petrograd has given Bolshevism a most fair trial. Everything there has been nationalized, from fuel to food, and from water to women. The Bolshevists have been in undisputed control. Everything was at their command. If they had any industrial or political miracles to work Petrograd offered ample opportunity for success.

Lenine has had his chance and he has failed most miserably. He offered the people of Russia bread, and has given them a stone; he offered them liberty and placed over them a type of tyranny that makes the late Czar's autocracy seem by comparison like the most liberal democracy; he offered them freedom and robbed them of their wives and daughters; he offered them ownership in all the land and the industries of the country, and he now drives them to labor at any wage he chooses to set and makes them work; he offered them freedom of speech, and now shoots them down when they take him at his word; he offered them life, and now the standing order for coffins in Petrograd is 30,000 a month.

The eskimos of the extreme north, with their snow huts and their walrus fat eat live in plenty and luxury as compared with the poor, starved people of Petrograd.

How the reign of the terrorists at Petrograd can hold out much longer under these conditions it is hard to see. Probably the end will come when the mercenary army begins to feel seriously the pangs of cold and hunger.

Sheep Instead of Monkey Glands

In Tablet Form Gland Substance from Sheep and Cattle Combined with Iron Now Used

It seems that when our glands are weak and run-down our entire system is apt to be weak and run-down, but when the glands are secreting the proper amount of "hormones" we are usually strong and healthy. The object of monkey glands which were usually transplanted by means of an operation was to replenish the supply of "hormones." And this same object seems now reached to a degree by gland extracts from healthy sheep and cattle combined with iron and other well known tonic agents, taken in tablet form, and eaten as one would eat any pill. Thus "hormones" are now within reach so that anyone can try building strength, health and endurance in this new way and to free themselves from the many handicaps of run-down and anaemic conditions.

This new tablet is being sponsored by the Glandex Company, Inc., 244 West 29th Street, New York, and can be procured of any druggist under the name of Glandeex Compound. So confident are the manufacturers of the merit of Glandex Compound that druggists are authorized to refund the purchase price should results be unsatisfactory after two weeks' trial.

Note: $1,000 will be paid by the Glandex Company, Inc., to anyone proving that Glandex Compound does not contain genuine desiccated gland substance(popularly known as Gland Extracts) from sheep and cattle. For sale by Craig's Drug Store, 466 Donner avenue, and by good druggists everywhere.

National Bread

"Made with milk"

NATIONAL Bread offers two-fold sustenance. It is made with milk, which naturally means extra nourishing quality as well as superb flavor. Baked in generous, family-size loaves. Get a loaf today.

NATIONAL BISCUIT COMPANY

The Red Eagle Wrapper Means National Bread

POCKET MONEY

A manufacturer recently took a census of his employes to find out how much money they were carrying around in their pockets. He found that they averaged to carry $28.00 each. A financial writer protests against this habit, on the ground that it withdraws from circulation and productive enterprises a big sum of money. He figures that if half the people are carrying around such sums, it would withdraw from business $1,500,000,000.

A prudent man can carry money around in his pocket and keep it But others make it their regular practice to spend it as fast as they have the cash in hand.

BLOOD IS FUEL TO THE BODY

Pumped through the System by the heart it Sustains the Muscles and Tissues

PEPTO-MANGAN HELPS BLOOD

Keep the Quality of Your Blood at its best---it Means Vigorous Health and Ability to Accomplish.

Blood acts like fuel. Pumped through the body by the heart, it sustains the muscles and tissues. It renews them. It feeds the brain—the tissues of the eye and face. That is why people look so pale and lifeless when blood is impoverished. The body tissues are being supplied with weak fuel. The blood has not enough red corpuscles. You would not eat poor food with no nourishment in it; no more should you let the fuel that supplies sustenance to your entire body be inferior. Have good blood. Improve the quality and keep it at its best.

If you look pale and feel weak, if you have lost your enthusiasm and energy, if your blood is clogged with poisons, your system is being fed with a poor grade of blood. That is no way to go around. If you are not at your best, get at the source of the trouble right away. Put an end to half living.

Take that ideal tonic, Pepto-Mangan, to tone up your blood and purify it. Get the full enjoyment out of living. Breathe fresh air, take exercise.

Be sure to ask for "Gude's Pepto-Mangan." It comes in convenient tablet form and in liquid. One has the same medicinal value as the other. There is only one genuine Pepto-Mangan, and the name "Gude's" is on the package. Adv.

"Henrys" and "Harrys."

While I know one Harry who was so christened with disregard for the more dignified Henry and there may be other instances of the kind, there seems to be little doubt that the latter is the parent of the former name. England has always called its King Henrys "Harry." During the reign of Henry VI, who succeeded to the throne in 1422, there was a piece of money coined called the Harry noble, and in the time of Henry VIII there was a tiny coin named the Harry groat. "In Jerusalem shall Harry be," said Henry IV.—Chicago Daily News.

HEAL SKIN DISEASES

Apply Zemo, Clean, Penetrating, Antiseptic Liquid

It is unnecessary for you to suffer with eczema blotches, ringworm, rashes and similar skin troubles. Zemo obtained at any drug store for 35c, or $1.00 for extra large bottle and promptly applied will usually give instant relief from itching torture. It cleanses and soothes the skin and heals quickly and effectively most skin diseases.

Zemo is a wonderful, penetrating, disappearing liquid and is soothing to the most delicate skin. It is not greasy or easily applied and costs little. Get it today and save all further distress.

The E. W. Rose Co., Cleveland, O.

TROUBLES FROM MY AGE

Mrs. Baney tells how Lydia E. Pinkham's Vegetable Compound Helped Her Through the Change of Middle Life.

Rochester, Ind.—"My troubles were from my age and Lydia E. Pinkham's Vegetable Compound helped me wonderfully. I took doctor's medicine and other patent medicine but the Vegetable Compound has helped my nerves more than anything I have ever taken. I am thankful to the one who recommended it to me and will surely do my part in telling others what the medicine has done for me."—Mrs. LETTIE BANEY, 458 East 3rd St., Rochester, Indiana

Such warning symptoms as sense of suffocation, hot flashes, headaches, backache, dread of impending evil, nervousness, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and dizziness should be heeded by middle-aged women and let Lydia E. Pinkham's Vegetable Compound carry them safely through this crisis as it did Mrs. Baney.

Crime Shows a Steady Increase

(By United Press)

Columbus, Oct. 18.—Despite the fact that Columbus is supposed to be "bone dry", intoxicating beverages seem to be flowing freely in the city, if the number of drunk cases disposed of in police court during September can be taken as an indication.

This fact is partly to blame, police say, for a general increase of about 30 per cent in crime in Columbus. Statistics show that during the year the increase in crime has mounted steadily. According to the report complied by Harold C. Gackenbach, chief clerk for the criminal division of municipal court, 560 cases of all character were disposed of during the month, 208 of which were for drunkenness.

This represents an increase of about 400 per cent over the same month in 1919 when there were only 50 drunks arrested. In 1918, with the saloons wide open, 311 were tried.

The report also shows that gambling is on the increase.

Although the country seems to be enjoying the greatest prosperity in its history, police court records show that vagrancy is on the increase.

In September last year there were only 25 arrested for vagrancy against 52 this year, or an increase of more than 100 per cent.

Peoples Forum

Editor Daily Independent:

Please publish in your public forum the following: Will some one give us correct information on a few of these questions. We read in the Borough Laws, that cows are not allowed to run loose. For three years we have asked for protection. We are all American citizens, buying our own homes and trying to live satinary and respectable, as any American citizen is entitled to live. We reside in the borough, pay taxes, have neither sewers, electric lights nor protection from cows. We have asked repeatedly for protection, but it still continues.

We were forced to build fences at great expense to keep the cows from chewing the steps of our porches Now they chew the fence posts, stretch their heads over the fence, and pull out our plants and vines by the root. If they are chased away the owners make the air blue with their oaths and curses and vulgarity. That we are shamed to raise our children in the midst of it They say they have a right to turn their cows on us, that we don't dare do anything.

We can stand on our porches and count fifty some cows every day within a very short distance of our doors. If it is against the laws of the borough, why it is allowed. For three years we have had the patience of Job. We ask for something to be done Then patiently wait with no results for 3 years. Cannot laws be enforced? If they can, why not?

How would the property owners on McKee avenue and Reed avenue like to have 50 cows turned loose on them for nine months of every year. We pay our taxes just the same as they do and want to raise our children under just as desirable conditions as they do, without profanity in our ears morning, night and noon. If the borough cannot enforce their laws, we are going to write soon to the state board of health at Harrisburg in regards to this matter. Whose place is it to stop this nuisance to taxpayers?

Tax Payers.

WHITES TO ABSORB MAORIS?

That Fate, Rather Than Extinction, Said to Be Assured to New Zealand Tribe.

The ingenuous explanation that they wouldn't have eaten neighbors had beef, mutton or pork been more abundant on the early New Zealand market stamps the native Maoris as a race with working brains, and their physiques have long been praised. It is not surprising, therefore, that, as a correspondent records, these aboriginals are among the few in modern times who, instead of perishing before the white man, will doubtless be absorbed into the white man's family.

Fifty thousand pure-bred Maoris still remain, half of whom are practically civilized. Many have entered to high political posts. There are four Maori members in the house of representatives, two in the legislative council and one is an unpaid cabinet minister in the executive council.

Through these provisions of remote East Indian blood, these natives, to it added, are not dying along rails. They are thought to be "displaced," as in table d'hote, several years ago a savory stock of Mohammedans or Parsees."

VIOLATE LAW

(continued from first page)

highways when turning to the right, and shall pass to the right of such intersection before turning to the left.

"When two vehicles approach the intersection of two public highways at the same time, the vehicle approaching from the right shall have the right of way."

NEED YOUNG MEN

Uncle Sam is looking about for 250 young men with a high school education who would like to learn the exciting profession of Army Baloonist, and eventually become baloon airship reserve officers. They will be paid $75 a month while learning, and receive a ration allowance of $1 a day, together with quarters, all clothing and equipment, and free medical and dental treatment. The course is open to unmarried applicants possessing a high school education, or its equivalent, who can pass the Regular Army physical examination and the physical tests required of flying officers.

Successful candidates enter as cadets and will be sent at once to the Air Service School for training as balloon observers at Ross Field, Los Angeles, California. There each young man takes a 10-month course in balloon observation under ideal conditions. He is taught how to handle his craft in all its phases and to make observations, and he eventually qualifies as a free balloon pilot.

When the cadet is rated as a balloon observer he goes to Fort Sill, Oklahoma, to receive his artillery training. Upon completion of this course, the student is commissioned a second lieutenant in the Air Service Reserve Corps Then he has the alternative of discharge or continuation in service as an enlisted man. There is also opportunity for him to take the examination for a lieutenancy in the Regular Army. If a cadet cannot finish his course successfully, he will be discharged and not retained in the army against his will.

Major General P. C. Harris, the Adjutant General of the Army says: "This training opens up an entirely new range of experience to the young man, and lays the foundation for qualification as a dirigible balloon pilot, a new field of almost limitless possibilities. Commercial transportation by airship is an accomplished fact in America, and according to present plans, next year will see it in actual operation in this country on a large scale. Today the only opportunity for such training is either in the army or in the navy, in fact, the lack of qualified personnel is one of the serious drawbacks to present commercial plans for airship transportation lines."

Army recruiting officers throughout the United States have been notified to furnish full particulars to all young men who are interested in becoming balloonists under these new conditions.

REPUBLICAN IN POLITICS

THE FORTY DAY FAST

The hunger strikes now in progress in Ireland and elsewhere recall to older folks the famous fast of Dr. Henry Tanner, who took no food for forty days, and then broke his remarkable period of abstinence in a manner that made the whole medical world sit up and take notice. His record has seldom been equaled and never surpassed in the history of medical science under conditions free from the shadow of doubt. Dr. Tanner fasted twice, once forty-two days, according to his own testimony, as a cure for various ailments, and then another forty days some time later to prove to the physicians that he could do it. The first fourteen days he took neither nourishment nor exercises, but after that he went for a short carriage ride each day and drank water.

Tanner's feat produced intense excitement and great crowds gathered and the whistles blew when it became known he had survived it.

But it was his manner of breaking the long fast that astonished his physicians. Disregarding all remonstrances, Tanner reached for a soft, ripe peach, peeled it and slowly ate it. Then he called for a Georgia watermelon off the ice. He cut a hole in it and plunged his hand down into the heart and ate a considerable quantity of it. Waiting a few minutes he took a glass of milk on top of the peach and the watermelon and then stood up and made a little talk to the crowd, apparently greatly relieved after his long strain. In a half hour he took a little more watermelon.

After being driven to the home of a physician, Dr. Gunn, he rested an hour or so and then drank an ounce of light wine, after which he took another slice of watermelon. At 4:30 he was eating with great relish a piece of beefsteak, not swallowing the fiber of the meat. At 6 o'clock he asked for an apple ate it, then asked for another and partially finished it. At 7:30 he tried the beefsteak again and at 8 another ounce of wine.

Then he fell asleep and awoke the next morning with no distressing effects, while the entire medical world wondered. At the end of his fast he weighed 122 pounds, a loss of thirty-five pounds from his normal weight, his pulse registered ninety-two beats and his temperature was ninety-nine.

The human stomach is a most amazing organism, and hunger strikers are not the only persons who treat it shamefully. Over eating is quite as serious as under-eating, and there are many who wonder at the folly of the hunger-strikers who might practice with profit a few of their tricks.

A STARVING NATION

The Finnish Red Cross reports that Petrograd is a "starving city." It might have gone farther and said that Russia is a starving nation. To be sure, there are districts, many of them, in the rural localities where the peasants have raised enough grain and fat producing animals to feed their population, but cities like Petrograd are living on short rations and thousands will die there of starvation this winter.

Petrograd has given Bolshevism a most fair trial. Everything there has been nationalized, from fuel to food, and from water to women. The Bolshevists have been in undisputed control. Everything was at their command. If they had any industrial or political miracles to work Petrograd offered ample opportunity for success.

Lenine has had his chance and he has failed most miserably. He offered the people of Russia bread, and has given them a stone; he offered them liberty and placed over them a type of tyranny that makes the late Czar's autocracy seem by comparison like the most liberal democracy; he offered them freedom and robbed them of their wives and daughters; he offered them ownership in all the land and the industries of the country, and he now drives them to labor at any wage he chooses to set and makes them work; he offered them freedom of speech, and now shoots them down when they take him at his word; he offered them life, and now the standing order for coffins in Petrograd is 30,000 a month.

The eskimos of the extreme north, with their snow huts and their walrus fat diet, live in plenty and luxury as compared with the poor, starved people of Petrograd.

How the reign of the terrorists at Petrograd can hold out much longer under these conditions it is hard to see. Probably the end will come when the mercenary army begins to feel seriously the pangs of cold and hunger.

TROUBLES FROM MY AGE

Mrs. Baney tells how Lydia E. Pinkham's Vegetable Compound Helped Her Through the Change of Middle Life.

Rochester, Ind.—"My troubles were from my age and Lydia E. Pinkham's Vegetable Compound helped me wonderfully. I took doctor's medicine and other patent medicine but the Vegetable Compound has helped my nerves more than anything I have ever taken. I am thankful to the one who recommended it to me and will surely do my part in telling others what the medicine has done for me." —Mrs. LETTIE BANEY, 405 East 9th St., Rochester, Indiana.

Such warning symptoms as sense of suffocation, hot flashes, headaches, backaches, dread of impending evil, nimidity, sounds in the ears, palpitation of the heart, sparks before the eyes, irregularities, constipation, variable appetite, weakness and dizziness should be heeded by middle-aged women and if Lydia E. Pinkham's Vegetable Compound cannot help them safely through this crisis, as it did Mrs. Baney.

Sheep Instead of Monkey Glands

In Tablet Form Gland Substance from Sheep and Cattle Combined with Iron Now Used

It seems that when our glands are weak and run-down our entire system is apt to be weak and run-down, but when the glands are secreting the proper amount of "hormones" we are usually strong and healthy. The object of monkey glands which were usually transplanted by means of an operation was to replenish the supply of "hormones." And this same object seems now reached to a degree by gland extracts from healthy sheep and cattle combined with iron and other well known tonic agents, taken in tablet form, and eaten as one would eat any pill. Thus "hormones" are now within reach so that anyone can try building strength, health and endurance in this new way and to free themselves from the many handicaps of run-down and anaemic conditions.

This new tablet is being sponsored by the Glandex Company, Inc., 244 West 29th Street, New York, and can be procured of any druggist under the name of Glandeex Compound. So confident are the manufacturers of the merit of Glandex Compound that druggists are authorized to refund the purchase price should results be unsatisfactory after two weeks' trial.

Note: $1,000 will be paid by the Glandex Company, Inc., to anyone proving that Glandex Compound does not contain genuine desiccated gland substance(popularly known as Gland Extracts) from sheep and cattle. For sale by Craig's Drug Store, 466 Donner avenue, and by good druggists everywhere.

National Bread

NATIONAL Bread offers two-fold sustenance. It is made with milk, which naturally means extra nourishing quality as well as superb flavor. Baked in generous, family-size loaves. Get a loaf today.

NATIONAL BISCUIT COMPANY

The Red Eagle Wrapper Means National Bread

POCKET MONEY

A manufacturer recently took a census of his employes to find out how much money they were carrying around in their pockets. He found that they averaged to carry $28.00 each. A financial writer protests against this habit, on the ground that it withdraws from circulation and productive enterprises a big sum of money. He figures that if half the people are carrying around such sums, it would withdraw from business $1,500,000,000.

A prudent man can carry money around in his pocket and keep it. But others make it their regular practice to spend it as fast as they have the cash in hand.

BLOOD IS FUEL TO THE BODY

Pumped through the System by the heart it Sustains the Muscles and Tissues

PEPTO-MANGAN HELPS BLOOD

Keep the Quality of Your Blood at its best---it Means Vigorous Health and Ability to Accomplish.

Blood acts like fuel. Pumped through the body by the heart, it sustains the muscles and tissues. It renews them. It feeds the brain---the tissues of the eye and face. That is why people look so pale and lifeless when blood is impoverished. The body tissues are being supplied with weak fuel. The blood has not enough red corpuscles. You would not eat eat poor food with no nourishment in it; no more should you let the fuel that supplies sustenance to your entire body be inferior. Have good blood. Improve the quality and keep it at its best.

If you look pale and feel weak, if you have lost your enthusiasm and energy, if your blood is clogged with poisons, your system is being fed with a poor grade of blood. That is no way to go around. If you are not at your best, get at the source of the trouble right away. Put an end to half living.

Take that ideal tonic, Pepto-Mangan, to tone up your blood and purify it. Get the full enjoyment out of living. Breathe fresh air, take exercise.

Be sure to ask for "Gude's Pepto-Mangan." It comes in convenient tablet form and in liquid. One has the same medicinal value as the other. There is only one genuine Pepto-Mangan, and the name "Gude's" is on the package. Adv.

"Henrys" and "Harrys."

While I know one Harry who was so christened with disregard for the more dignified Henry and there may be other instances of the kind, there seems to be little doubt that the latter is the parent of the former name. England has always called its King Henrys "Harry." During the reign of Henry VI, who succeeded to the throne in 1422, there was a piece of money coined called the Harry noble, and in the time of Henry VIII there was a tiny coin named the Harry groat. "In Jerusalem shall Harry die," said Henry IV.—Chicago Daily News.

HEAL SKIN DISEASES

Apply Zemo, Clean, Penetrating, Antiseptic Liquid

It is unnecessary for you to suffer with eczema, blotches, ringworm, rashes and similar skin troubles. Zemo obtained at any drug store for 35c, or $1.00 for extra large bottle and promptly applied will usually give instant relief from itching torture. It cleanses and soothes the skin and heals quickly and effectively most skin diseases.

Zemo is a wonderful, penetrating, disappearing liquid and is soothing to the most delicate skin. It is not greasy, is easily applied and costs little. Get it today and save all further distress.

Crime Shows a Steady Increase

(By United Press)

Columbus, Oct. 18.—Despite the fact that Columbus is supposed to be "bone dry", intoxicating beverages seem to be flowing freely in the city, if the number of drunk cases disposed of in police court during September can be taken as an indication.

This fact is partly to blame, police say, for a general increase of about 30 per cent in crime in Columbus. Statistics show that during the year the increase in crime has mounted steadily. According to the report complied by Harold C. Gackenbach, chief clerk for the criminal division of municipal court, 560 cases of all character were disposed of during the month, 208 of which were for drunkenness.

This represents an increase of about 400 per cent over the same month in 1919 when there were only 50 drunks arrested. In 1918, with the saloons wide open, 311 were tried.

The report also shows that gambling is on the increase.

Although the country seems to be enjoying the greatest prosperity in its history, police court records show that vagrancy is on the increase.

In September last year there were only 25 arrested for vagrancy against 52 this year, or an increase of more than 100 per cent.

Peoples Forum

Editor Daily Independent:

Please publish in your public forum the following: Will some one give us correct information on a few of these questions. We read in the Borough Laws, that cows are not allowed to run loose. For three years we have asked for protection. We are all American citizens, buying our own homes and trying to live satinary and respectable, as any American citizen is entitled to live. We reside in the borough, pay taxes, have neither sewers, electric lights nor protection from cows. We have asked repeatedly for protection, but it still continues.

We were forced to build fences at great expense to keep the cows from chewing the steps of our porches. Now they chew the fence posts, stretch their heads over the fence, and pull out our plants and vines by the root. If they are chased away the owners make the air blue with their oaths and curses and vulgarity. That we are shamed to raise our children in the midst of it. They say they have a right to turn their cows on us, that we don't dare do anything.

We can stand on our porches and count fifty some cows every day within a very short distance of our doors. If it is against the laws of the borough, why it is allowed. For three years we have had the patience of Job. We ask for something to be done. Then patiently wait with no results for 3 years. Cannot laws be enforced? If they can, why not?

How would the property owners on McKee avenue and Reed avenue like to have 50 cows turned loose on them for nine months of every year. We pay our taxes just the same as they do and want to raise our children under just as desirable conditions as they do, without profanity in our ears morning, night and noon. If the borough cannot enforce their laws, we are going to write soon to the state board of health at Harrisburg in regards to this matter. Whose place is it to stop this nuisance to taxpayers?

Tax Payers.

WHITES TO ABSORB MAORIS?

That Fate, Rather Than Extinction, Said to Be Assured to New Zealand Tribe.

The ingenuous explanation that they wouldn't have eaten neighbors had beef, mutton or pork been more abundant on the early New Zealand market stamps the native Maoris as a race with working brains, and their physiques have long been praised. It is not surprising, therefore, that, as a correspondent records, these aborigines are among the few in modern times who, instead of proving the vanishing, will doubtless be absorbed into the white man's family.

Fifty thousand purebred Maoris still remain, half of whom are practically civilized. Many have attained to high political position. There are four Maori members in the house of representatives, two in the legislative council and one is an important minister in the executive council.

Themselves Polynesians of remote East Indian blood, these natives, be it added, are not strictly aboriginals. They are thought to have "displaced, a la table d'hote, some 500 years ago a savory stock of Melanesians or Papuans."

highways when turning to the right, and shall pass to the right of such intersection before turning to the left.

"When two vehicles approach the intersection of two public highways at the same time, the vehicle approaching from the right shall have the right of way."

NEED YOUNG MEN

Uncle Sam is looking about for 250 young men with a high school education who would like to learn the exciting profession of Army Baloonist, and eventually become baloon airship reserve officers. They will be paid $75 a month while learning, and receive a ration allowance of $1 a day, together with quarters, all clothing and equipment, and free medical and dental treatment. The course is open to unmarried applicants possessing a high school education, or its equivalent, who can pass the Regular Army physical examination and the physical tests required of flying officers.

Successful candidates enter as cadets and will be sent at once to the Air Service School for training as balloon observers at Ross Field, Los Angeles, California. There each young man takes a 19-month course in balloon observation under ideal conditions. He is taught how to handle his craft in all its phases and to make observations, and he eventually qualifies as a free balloon pilot.

When the cadet is rated as a balloon observer he goes to Fort Sill, Oklahoma, to receive his artillery training. Upon completion of this course, the student is commissioned a second lieutenant in the Air Service Reserve Corps. Then he has the alternative of discharge or continuation in service as an enlisted man. There is also opportunity for him to take the examination for a lieutenancy in the Regular Army. If a cadet cannot finish his course successfully, he will be discharged and not retained in the army against his will.

Major General P. C. Harris, the Adjutant General of the Army says: "This training opens up an entirely new range of experience to the young man, and lays the foundation for qualification as a dirigible balloon pilot, a new field of almost limitless possibilities. Commercial transportation by airship is an accomplished fact in America, and according to present plans, next year will see it in actual operation in this country on a large scale. Today the only opportunity for such training is either in the army or in the navy, in fact, the lack of qualified personnel is one of the serious drawbacks to present commercial plans for airship transportation lines."

Army recruiting officers throughout the United States have been notified to furnish full particulars to all young men who are interested in becoming balloonists under these new conditions.

ENGAGED IN SPLENDID WORK

New York School Devoted to the Task of Making Cripples and Unfortunates Self-Supporting.

From his association with the late Rev. H. Boswell Bates, founder of the Neighborhood house, George A. Merritt learned how little was being done to make cripples self-supporting and how common, almost universal, was the belief that owing to various afflictions these unhappy ones must always be a burden on others. This was not his belief, and so strong did he hold an opposite conviction that, with the aid of a few charitable persons whom he inspired with it, he founded the Path school at 60 West Twenty-Fifth street, New York, in order to teach cripples commercial and railroad telegraphy and thus give to them that greatest boon, a means of livelihood. This school is still young, but it has already proved itself many times over. It trains legless, armless, and deformed persons, but especially the young who are thus afflicted, either in the course laid out by the school or in some other line most suitable to individual cases. It is free to all, non-sectarian, and it has already in its short life lifted nearly 50 poor creatures from a state of dependence, or even penury, to positions where by honest labor they earn from $12 to $18 per week and have the joy that comes from self-support.

Alumni in Movement for Expansion of Holy Cross

FATHER CARLIN, PRESIDENT of HOLY CROSS

WITH Holy Cross College one of the oldest institutions of higher education in New England, closing its doors to scores of students every year because of inability to make room for them, alumni and former students of the college are sponsoring a movement for the expansion of the school by the erection of [illegible] buildings on the ramparts at Worcester, Mass.

The movement was born at a reunion of alumni and former students at the college Labor Day. A realization of the crisis faced by the school came when it was learned that halls [illegible] are being used as classrooms, dormitories are crowded to the limit of comfort, not a room in the college is large enough to hold the student body assembled, and last July it was necessary to refuse enrollments for the present year. With this knowledge, the former students decided to open the way for an expansion of the college.

A new students' dormitory, a science and lecture hall, an assembly and dining hall, an administration building and a new chapel are the "immediate" improvements. The additions will permit the school to increase its yearly enrollments to 1,000.

Holy Cross College was founded in 1843 and has grown steadily since that date. It has sought from the start to keep its doors open at all times to the youth of meager means. Although most colleges and universities have been forced, because of increased costs and advances in salaries of faculty members, to increase their tuition fees, in some cases to $1,000 and $1,200, Holy Cross has kept its combined tuition and boarding fee at $400. This is largely due to the fact that its faculty serves without pay.

The stress placed by educators on the menace to the entire system of Christian education in just such crises as that faced by Holy Cross also has spurred the college's alumni to take definite action looking to an extension of the moral training carried on at the school. Alumni organizations throughout the country have endorsed the movement and plans for the expansion are rapidly taking form.

NEWSPAPERARCHIVE®

185 audiences tried it this way

MOST people know that the musical enjoyment which they get out of a phonograph depends upon one thing. That thing is the phonograph's realism.

This picture shows the best way to test a phonograph's realism. Miss Betsy Lane Shepherd, the famous soprano, is standing beside the New Edison, and singing in direct comparison with the New Edison's RE-CREATION of her voice.

185 audiences, aggregating more than 100,000 people, have actually heard this comparison. None could distinguish between her living voice and its RE-CREATION.

This is one of the phenomenal records of realism. The New Edison holds all other records of realism, too, because no other phonograph attempts this comparison-test—or could sustain it.

The NEW EDISON

"The Phonograph with a Soul"

You try it this way

—the way we use in our store!—the Realism Test! Test the New Edison's Realism against the pleasure you know music can bring.

Tell us what kind of voice or instrument gives you truest musical enjoyment. Listen while we play your favorite on the New Edison. The Realism Test will enable you to gauge whether the New Edison's RE-CREATION gives you all of this enjoyment.

This is your test! It will help you determine what the New Edison's Realism means, in terms of your own musical enjoyment.

Ask for it! The "Personal Favorites" Realism Test.

Another thing to ask about is our Budget Plan. It disposes of the money question, in a way that will appeal to your common-sense and to your pocketbook.

W. S. Moore & Sons

Coal Ships in Half Hour With Machine

(By United Press)

Philadelphia, Oct. 18.—Foreign ocean going vessels are taking advantage of the automatic coal loading machine which has been installed at the Greenwich Point piers here. The system is borrowed from the plan in use on the Great Lakes, where iron ore is handled and shipped quickly and cheaply. By this method of coaling an ordinary sea-going craft can be loaded in less than half an hour, where formerly took several days.

Fifty railroad tracks, forming a network and capable of holding 1,000 cars of coal, are built around the machine. The cars, specially constructed wait on the siding until a vessel is ready to coal. Each car passes through a concrete steam heated thawing shed which is used for thawing coal in winter. Released from the thawing shed, the cars glide down a slight incline and up another where they are clamped to the rails. A huge platform, resembling an elevator, automatically places itself into a position of an acute angle. The coal is permitted to run from the car, onto the platform and into a V-shaped bowl which connects it with a chute from the hold of the ship.

The dumper was built at a cost of approximately $500,000 and is the only one in this section of the United States. Foreign vessels alone spend $1,000,000 monthly for coaling supplies here. Last month broke all previous records when 306,700 tons of coal was loaded on ocean-going craft.

Lloyd George Aa a Dog Smuggler

(By United Press)

London—Lloyd George lived up to his reputation as a "Welsh wizard" when he returned from Lucerne.

He managed to smuggle home with him as far as No. 10 Downing Street dog—not a "pom" or a "peke", but a St. Bernard, standing about three feet high.

Despite the regulations governing the matter of bringing a dog into the country, Lloyd George managed to fool them all until he had got his new pet ensconsed in a comfortable armchair before the domestic hearth.

Then came the moment of reckoning. The Board of Agriculture snatched the dog away, declaring it must spend the usual six months in quarantine and follow all the laws laid down for any John Smith's dog. Whereupon Lloyd George bid his sanme friend an affectionate "au revoir" and settled himself down to being a law-abiding citizen.

The British Premier is a dog-lover. He used to have a little black pug named "Zulu" and he still has a Welsh terreir "Cymro". The newcomer is a St. Bernard about eight months old, and was purchased from a shepherd at the Rhone Valley. At a station Captain Guest saw the dog and called Lloyd George's attention to it. In a few minutes the owner was presented to the Premier and the St. Bernard sat up and made the shepherd an offer. The bargain was closed.

And now both master and dog are waiting patiently for the six months quarantine to expire.

Perhaps They Go To Philadelphia to Rest

Philadelphia, Oct 18—Officials of the Missing Persons Bureau here are mystified by the large number of persons they have been asked to locate in the past month by relatives residing in all sections of the country.

The list which is increasing daily, shows that fully 550 persons are being sought here. Many of these are young women, who police believe, have been enticed from their homes or left the small cities for greatef opportunities which they believed existed here.

The bureau officials said they are confronted with a perplexing situation by requests to find persons who wandered from their homes while victims of aphasia. A dozen sailors who had written relatives that they had received their discharge papers and were leaving for home, have not been heard from again.

A TALENTED MUSICIAN
You can learn to play any instrument in a short time under the instruction of Mr. Rizutto, at the Monessen Music Store. Lessons given daily. 95-tf

Olympic Theatre

TODAY

"The Country That God Forgot"

With TOM SANTSCHI, MARY CHARLESON AND GEORGE FAWCETT

A big smashing story of the Western Wasters and of a man's love for woman. Directed by Marshall Neilan.

TUESDAY AND WEDNESDAY
WILLIAM FARNUM in

"If I Were King"

The flavor of romance, of picturesque adventure in a colorful world has been caught. A spectacular and swiftly moving melodrama is the result. Farnum's performance one of the best things he has ever done.

EVERY MONDAY—An Episode of "VANISING TRAILS" featuring Franklyn Farnum.

EVERY WEDNESDAY—An Episode of "THE LOST CITY" featuring Juanita Hansen.

EVERY SATURDAY—An Episode of "THE VANISHING DAGGER" with Eddie Polo.

THE RIGHT OVERCOAT

You want the right overcoat; and it is important to be careful where you buy, because there are some that not the right ones.

All-wool fabrics, high grade tailoring, smart style are the things to look for; the quality of the goods determines the service you get; and that is your measure of economy.
